More "Murder" Hints in McClintock Case

William Nelson McClintock, youthful Chicago millionaire, took a sensational turn in the Windy City when Chief Justice Harry Olson, of the Municipal Court, demanded that the probe be extended into the deaths of Mrs. Emma Nelson McClintock, Billy's mother, and Dr. Oscar Olson, Olson's brother, pny sician to the McClintock and Shep herd families. Judge Olson reported that his brother, long-time friend of the McClintock family, had been seen with William D. Shepherd foster father and heir of Billy, shortly before his death.

90 Per Cent of World's Motor Cars on Our Highways

There are 16,000,000 motor vehicles in the United States - approximately 90 per cent of all in the world.

This total is being increased at the rate of 4,000,000 a year.

What is the saturation point?

Ask any one of the 16,000,000 motorists trying to make headway through the countless traffic jams on some of our concrete highways. He will tell you, from the standpoint of comfort and safety in driving, the saturation point is already in sight.

Not a very encouraging outlook, is it, for the man about to buy his first automobile?

So you see car owners and prospective car owners are both interested and have an immediate task confronting them.

What are you going to do about it? Even now you are curtailing the use of your car because you do not want to endure the discomfort, inconvenience and danger of traveling on congested, narrow highways.

Your highway officials need your support. They can't do much unless you stand squarely behind them.

To delay building more highways wide enough and strong enough to meet all the requirements of modern traffic will cost you more money than will an adequate system of Concrete Roads and Streets.

Neglected Cough Dangerous—How to Stop It Quickly

When the delicate tissues of your throat are raw and sore from coughing and your strength is exhausted with the constant hacking, you may fall an easy prey to more serious trouble. So stop the cough the quickest you can, before it creeps too deep. By a very simple treatment you can stop the spells practically at once, and relieve the heaviest cough often in 24 hours. The treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing, without following with water. It has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. With the cause treated in this way, thewhole coughcondition goes in a very short time.

The prescription contains no opiates or harmful drugs. It simply helps Nature, It is for coughs, chest colds, hoarseness, bronchitis and spasmodic croup. Very economical, as the dose is only one teaspoonful. For sale at all good druggists. Ask for and your strength is exhausted with

The only people who get eggs that there is floating in these Unitwho have a comfortable place fo their hens, both night and day. A German government bonds from good house is just as important as good hens and good feeding. On every farm where good production 1. Until I ascertain for certain hens, proper feeding and good houses. All of the big poultry farms have good houses.

Trying to keep up egg production 5.00 a day each, and so long as I when you have provided only two them I would be simple to sell them of the essentials is like trying to make a three legged stool stand up on two legs. It can't be done; or at least it can't be depended upon

to stay up. It will pay well to provide perma nently for the hens so that you may expect constant production, while

eggs are high. I'm going to write you again in a few days about this housing proposition, because I think it is extreme ly important and in the mean time I hope you will be thinking about remodeling some of your buildings so as to provide a good tight build ing, not less than 16 feet from front back or else consider putting up

new hen house. If you have already built a house ince we ran our Poultry Special last spring, please drop me a card and tell me about it.
